DETAILED ACTION

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claim Rejections - 35 USC § 103

Claims 22-24 are rejected under 35 U.S.C. 103(a) as being unpatentable over Friello, U.S. Patent 4,250,196 in view of McDonald, U.S. Patent 3,062,662, for the reasons set forth in the previous Office Action.

Response to Arguments

Applicant's arguments filed July 13, 2005, have been fully considered but they are not persuasive.

Applicant argues that the Examiner has failed to point out why the combination of Friello and McDonald is proper. However, Applicant's quote from the Office Action ends prematurely. The Office Action reads, "Therefore, it would have been obvious to coat the gum of Friello as taught by McDonald *in order to provide the product with an additional appealing texture and/or flavor and also to extend the period of time over which the product could be enjoyed.*" Thus, there is motivation for combining the teachings of Friello and McDonald and the combination is proper.

In response to applicant's argument that the specific coating method of McDonald could not be used with the invention of Friello, the test for obviousness is not

whether the features of a secondary reference may be bodily incorporated into the structure of the primary reference; nor is it that the claimed invention must be expressly suggested in any one or all of the references. Rather, the test is what the combined teachings of the references would have suggested to those of ordinary skill in the art. See *In re Keller*, 642 F.2d 413, 208 USPQ 871 (CCPA 1981). Applicant argues that one of ordinary skill in the art would not employ the process as taught by McDonald to coat a center-filled gum. However, that is not required to make the rejection proper. McDonald is relied on merely to show that coated gums were well known in the art at the time of invention.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
